

DETAILED EWP COURSE INFORMATION

TLILIC0005 - Licence to operate a boom-type elevating work platform (boom length 11 metres or more)

Objectives

This unit specifies the skills and knowledge required to safely operate a boom-type Elevating Work Platform (EWP) where the length of the boom is 11 metres or more in accordance with all relevant legislative requirements. Competence in this unit, does not in itself result in a Risk Work Licence (HRWL) to operate this plant.

Boom-type elevating work platform means a telescoping device, hinged device, or articulated device, or any combination of these, used to support a platform on which personnel, equipment and materials may be elevated.

A person performing this work is required to hold a boom-type elevating work platform HRWL.

Licensing/Regulatory Information

Legislative and regulatory requirements are applicable to this unit of competency.

This unit is based on the licensing requirements of Part 4.5 of the Model Work Health and Safety (WHS) Regulations and meets Commonwealth, State and Territory HRWL requirements.

The National Assessment Instrument (NAI) is the mandated assessment for the HRWL to operate the relevant licencing class as detailed in this unit.

Entry requirements

Must be minimum 18 years of age and have photo I.D. that includes name, signature and date of birth & secondary ID.

Duration

Delivered and assessed over 2 full days

Course Fee: \$495

The course is delivered across all TDT Sites (Hallam, Bendigo, Sale, Sunshine and Ballarat)

Course content

Theory includes but is not limited to:

- Australian and industry standards, codes of practice and guidelines to safely operate an EWP (boom length 11 metres or more) including:
- appropriate mathematical calculations to estimate loads ensuring EWP is not overloaded
- appropriate workplace communication procedures
- compliance with permit condition requirements

Practical includes but is not limited to:

- advising relevant person/s on site in relation to any hazards and risk elimination/control strategies
- applying safe operating procedures for an Elevating Work Platform (EWP) including all functions within the safe working rated capacity
- applying emergency procedures
- applying traffic management plan procedures relevant to their role in the work area
- carrying out operational checks on EWP

Resources

Resources for assessment of this unit of competency include access to:

- appropriate boom-type elevating work platform (boom length 11 metres or more) in a safe/serviceable condition in accordance with manufacturer requirements
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including:
 - approved codes of practice and relevant guidance material
 - relevant Australian technical standards
 - manufacturer guidelines (instructions, requirements or checklists), relevant industry standards and operating procedures (where applicable).

Assessment

Assessment processes and techniques are appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment occurs in workplace operational situations. Where this is not appropriate, assessment occurs in simulated workplace operational situations that reflect workplace conditions.

Simulators are not used in the assessment of this unit of competency

Note: Onsite training & testing is available upon request. Minimum numbers and WorkSafe criteria applies.
